KNOW YOUR ROLE! KNOW THE PROTOCOLS!

The following best practices are intended to offer guidance to our Germantown Soccer community. Adherence to these considerations and recommendations does not ensure immunity from exposure. Germantown Soccer Club makes no representations and assumes no responsibility for individual activity or participation decisions by Coaches, Parents, or Players.

Any individual (player, coach, staff or parent/guardian) who has tested positive for COVID-19 must be symptom free after 10 days before entering any athletic premises in the Village of Germantown.

Any individual that tests positive or has symptoms consistent with COVID-19 has a duty to report to the Club Covid-19 Contact (Jason Borchard).

In addition to this, Germantown Soccer Club has adapted the following responsibilities:

- Distribute all Return to Play protocols to our members.
- Have an effective communication plan in place, identify strategies for working with public health to notify adult leaders, youth, and their families if the organization learns a participant or adult leader has developed COVID-19 and may have been infectious to others while at a youth activity, while maintaining confidentiality.
- Be prepared to shut down and stop operations. Develop plans for temporary closure of indoor facilities and cancel outdoor activities or camps to properly disinfect and ensure other adult leaders or youth are not infected.
- Provide adequate field space for full teams to train.
- Develop a relationship and a dialogue with health local officials. (identify Risk Tolerance)
- Properly educate all coaches on sanitation protocols and Return to Play recommendations as supplied by WYSA.
